INTRODUCTION

The 2006 ISDA Inflation Derivatives Definitions (the "Definitions") are intended to facilitate the documentation of inflation derivatives transactions under any of the following: (i) the 2002 ISDA Master Agreement; (ii) the 1992 ISDA Master Agreement (Multicurrency – Cross Border); (iii) the 1992 ISDA Master Agreement (Single Currency – Local Jurisdiction); (iv) the 1987 Interest Rate and Currency Exchange Agreement; or (v) the 1987 Interest Rate Swap Agreement (each, an "ISDA Master Agreement"), as published by the International Swaps and Derivatives Association, Inc. ("ISDA"). Copies of the ISDA Master Agreements are available from the executive offices of ISDA or from the ISDA website (www.isda.org).

ISDA has provided these Definitions to assist the smooth and efficient functioning of the inflation derivatives market by providing a common set of terms for parties to use in preparing Confirmations for privately negotiated inflation derivatives transactions. However, the precise documentation of each individual transaction remains the responsibility of the parties concerned. ISDA assumes no responsibility for any use to which these Definitions may be put. Each party to a transaction evidenced by a Confirmation referring to these Definitions must satisfy itself that the Definitions are appropriate for the transaction, have been properly used and/or adapted in the Confirmation for the transaction(s) and that the Confirmation has generally been properly drafted, in each case, to reflect the commercial intentions of the parties.

The Introduction is not part of the Definitions and is not offered as an interpretation of the Definitions.
Any or all of the following definitions and provisions may be incorporated into a document by wording in the document indicating that, or to the extent to which, the document is subject to the 2006 ISDA Inflation Derivatives Definitions (as published by the International Swaps and Derivatives Association, Inc. ("ISDA")). All definitions and provisions so incorporated in a document will be applicable to that document unless otherwise provided in that document, and all terms defined in these Definitions and used in any definition or provision that is incorporated by reference in a document will have the respective meanings set forth in these Definitions unless otherwise provided in that document. Any capitalized term not herein defined, shall have the meaning given to that term in the 2000 ISDA Definitions or other relevant ISDA publication as the context requires.

Any term used in a document will, when combined with the name of a party, have meaning in respect of the named party only.

ARTICLE 1

GENERAL DEFINITIONS

Section 1.1. "Affected Payment Date" means each Payment Date in respect of which an Index has not been published or announced.

Section 1.2. "Affected Party" has the meaning given to it in the ISDA Master Agreement specified in the Confirmation to govern the Index Transaction (or if none, as defined in 2002 ISDA Master Agreement).

Section 1.3. "Fallback Bond" means a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Index relates and which pays a coupon or redemption amount which is calculated by reference to the Index, with a maturity date which falls on (a) the same day as the Termination Date, (b) the next longest maturity after the Termination Date if there is no such bond maturing on the Termination Date, or (c) the next shortest maturity before the Termination Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Effective Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible
bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

**Section 1.4.** "Index" means each index specified as such in the related Confirmation, or any Successor Index as nominated under the terms of these Definitions.

**Section 1.5.** "Index Sponsor" means the entity that publishes or announces (directly or through an agent) the level of the relevant Index.

**Section 1.6.** "Index Transaction" means a transaction relating to an Index.

**Section 1.7.** "Reference Month" means the calendar month for which the level of the Index was reported, regardless of when this information is published or announced. If the period for which the Index level was reported is a period other than a month, the Reference Month is the period for which the Index level was reported.

**Section 1.8.** "Related Bond" means the bond specified as such in the related Confirmation, or if no bond is so specified, the Fallback Bond. If the Related Bond is "Fallback Bond", then for any Related Bond determination under these Definitions, the Calculation Agent shall use the Fallback Bond (as that is defined in Section 1.3 herein). If no bond is specified as the Related Bond and "Fallback Bond: Not applicable" is specified in the related Confirmation there will be no Related Bond for purposes of these Definitions. If a bond is selected as the Related Bond in the related Confirmation, and that bond redeems or matures during the Term of the Transaction, unless "Fallback Bond: Not applicable" is specified in the related Confirmation, the Calculation Agent shall use the Fallback Bond for any Related Bond determination under these Definitions.

**Section 1.9.** "Substitute Index Level" means an Index level, determined by the Calculation Agent pursuant to the provisions of Section 2.1 hereof, in respect of an Affected Payment Date.

**Section 1.10.** "Successor Index" has the meaning specified in Section 2.2 hereto.

**Section 1.11.** "Termination Event" has the meaning given to it in the ISDA Master Agreement specified in the related Confirmation to govern the Index Transaction (or if none, as defined in the 2002 ISDA Master Agreement).

**Section 1.12.** "Index Descriptions"

ARTICLE 2

INDEX DELAY AND DISRUPTION EVENT PROVISIONS

Section 2.1. Delay of Publication

(a) If any level of an Index for a Reference Month which is relevant to the calculation of a payment under an Index Transaction (a "Relevant Level") has not been published or announced by the day that is five Business Days prior to the next Payment Date under that Index Transaction, the Calculation Agent shall determine a Substitute Index Level (in place of such Relevant Level) by using the following methodology:

(i) If applicable, the Calculation Agent will take the same action to determine the Substitute Index Level for the Affected Payment Date as that taken by the calculation agent pursuant to the terms and conditions of the Related Bond;

(ii) If (i) does not result in a Substitute Index Level for the Affected Payment Date for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

Substitute Index Level = Base Level \times \left( \frac{\text{Latest Level}}{\text{Reference Level}} \right)

Where:

"Base Level" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

"Latest Level" means the latest level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Index Level is being calculated.

"Reference Level" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in "Latest Level" above.

(b) If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next Payment Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Section 2.1, will be the definitive level for that Reference Month.
Section 2.2. Cessation of Publication. If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index then the Calculation Agent shall determine a Successor Index (in lieu of any previously applicable Index) for the purposes of the Index Transaction by using the following methodology:

(a) If at any time (other than after an Additional Termination Event has been designated by the Calculation Agent pursuant to Section 2.2(e) hereof), a successor index has been designated by the calculation agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated a "Successor Index" for the purposes of all subsequent Payment Dates in relation to the Index Transaction, notwithstanding that any other Successor Index may previously have been determined under Sections 2.2(b), (c) or (d) hereof; or

(b) If a Successor Index has not been determined under (a) above (and there has been no designation of an Additional Termination Event pursuant to Section 2.2(e) hereof), and a notice has been given or an announcement has been made by an Index Sponsor, specifying that the Index will be superseded by a replacement Index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the Index for purposes of the Index Transaction from the date that such replacement Index comes into effect; or

(c) If a Successor Index has not been determined under (a) or (b) above (and there has been no designation of an Additional Termination Event pursuant to Section 2.2(e) hereof), the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same index, this index will be deemed the "Successor Index". If fewer than three responses are received, the Calculation Agent will proceed to subsection (d) hereof; or

(d) If no Successor Index has been deemed under (a), (b) or (c) above by the fifth Business Day prior to the next Affected Payment Date the Calculation Agent will determine an appropriate alternative index for such Affected Payment Date, and such index will be deemed a "Successor Index".

(e) If the Calculation Agent determines that there is no appropriate alternative index, an Additional Termination Event will be deemed to occur, with both parties being Affected Parties and this Transaction as the sole Affected Transaction. Any resultant termination of this Transaction will occur in accordance with the provisions in the ISDA Master Agreement specified in the Confirmation to govern the Index Transaction (or if none, as defined in 2002 ISDA Master Agreement).
Section 2.3. Rebasing of the Index. If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the "Rebased Index") will be used for purposes of determining the level of an Index from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. Any such rebasing shall not affect any prior payments made under an Index Transaction.

Section 2.4. Material Modification Prior to Payment Date. If, on or prior to the day that is five Business Days before a Payment Date, an Index Sponsor announces that it will make a material change to an Index then the Calculation Agent shall make any such adjustments to the Index consistent with adjustments made to the Related Bond, or, if there is no Related Bond, only those adjustments necessary for the modified Index to continue as the Index.

Section 2.5. Manifest Error in Publication. If, within thirty days of publication, the Calculation Agent determines that the Index Sponsor has corrected the level of the Index to remedy a manifest error in its original publication, the Calculation Agent will notify the parties of (i) that correction, (ii) the amount that is payable as a result of that correction and (iii) take such other action as it may deem necessary to give effect to such correction.
