## Processing Part II Dodd-Frank Protocol

### Questionnaire (Questions 1-5)

# Compliance with Dodd-Frank business conduct rules made easy

---

## ISDA Markit Partnership

ISDA and Markit have developed a documentation-compliance tool to support market participants amend documentation covering over-the-counter derivatives. The move is intended to help counterparties comply with the Dodd-Frank Act, and will be used for amendments to documentation necessitated by other global regulatory changes.

---

## Background

Dodd-Frank business conduct rules impose new obligations on swap dealers in a range of areas.

---

## Requirement

Swap dealers must sign amendments to their ISDA documentation with impacted swap counterparties to become compliant with these Dodd-Frank rules.

---

## Summary

Rather than bilaterally agreeing to a set of amendments (the combination of which will be specific to the client), participants will adhere to an ISDA protocol, agreeing to contractual amendments published by ISDA and elected on the system. Markit will provide an online questionnaire that not only automates the matching of amendments to bilateral agreements but also maps that questionnaire back to other account data and documentation.
