Licensed ISDA SIMM™ Vendors

A growing number of companies have licensing agreements in place with ISDA that allow them to offer services to their clients based the ISDA Standard Initial Margin Model (SIMM). ISDA expects that an increasing number of market participants will leverage these services to assist with their use of the SIMM to calculate regulatory initial margin (IM). ISDA encourages early engagement to identify the service(s) most suitable to your needs.

ISDA SIMM Crowdsourcing Utility

ISDA encourages all SIMM users that have equity or credit derivatives transactions subject to regulatory IM to subscribe to and participate in the ISDA SIMM Crowdsourcing Utility. This important service prevents potential disputes due to inconsistent risk bucket selection.

Licensing the ISDA SIMM

Please be advised that all parties which calculate their regulatory IM using SIMM are required to execute an ISDA SIMM License Agreement with ISDA regardless of whether they calculate the regulatory IM themselves or via their counterparty, a third party or a Licensed SIMM Vendor. This requirement applies regardless of whether the party is directly or indirectly subject to regulatory initial margin requirements. Please contact isdalegal@isda.org for more information on licensing the ISDA SIMM.
