

The new way to negotiate ISDA documentation

ISDA Create is an online solution that allows organisations to produce, deliver, negotiate and execute derivatives documentation completely online.

By choosing to negotiate your IM documentation on ISDA Create, you can...

Streamline your negotiations:

- draft documents without the need for independent word processing
- distribute drafts to multiple counterparties at once
- gain immediate visibility over negotiation status
- easily compare your position against your counterparty's position
- bulk upload details of underlying funds to generate umbrella agreements
- require internal approvals for any changes to preferred elections
- store unlimited templates for different negotiation parameters

Get ahead of the curve:

- become proficient before further documentation is added to ISDA Create, including Regulatory IM custodian documentation, the Schedule to the ISDA Master Agreement and more
- onboard unlimited users quickly and easily
- use ISDA Create for IM negotiations free of charge for buy-side participants (determined by reference to ISDA membership category, or deemed membership category if not an ISDA member)

Capture valuable data:

- downstream 100% accurate structured legal data from your documents
- export a complete audit trail of user activity and negotiation history, including approvals granted
- leverage powerful data analytics
- connect to third party providers, including AcadiaSoft's Agreement Manager
- use APIs to automatically pull data from, and push data to, ISDA Create

To get more information about ISDA Create or arrange a demonstration, contact ISDACreate@isda.org.
