

2021 ISDA INTEREST RATE DERIVATIVES DEFINITIONS

SUBMITTED PREFERENCES GRID

18th March 2022

IMPORTANT INFORMATION: The phased approach to implementation of the 2021 Definitions means that some market participants will be ready to trade using the 2021 Definitions with their counter parties from October 4th while others will not be ready until later dates. In order to reduce the potential for breaks and in order to help facilitate a safe and efficient market, ISDA has agreed to post information regarding firms' definitional preferences in a standardised format. Where firms have not used that standardized format, ISDA has posted the information in the format provided. ISDA takes no responsibility for the information any preference grid contains and makes no representation as to its accuracy or completeness. For a definitive understanding of a party's definitional preferences, market participants should contact the relevant party. Contact details (to the extent they have been provided) can be found at the bottom of each preference grid. ISDA may, but shall not be obliged to, update this document from time to time to update preference grids provided or to add new preference grids submitted for posting. By accessing the information provided, users agree that they will not use the information for any anti-competitive purpose.

Bank of America

Important: This matrix has been produced in order to facilitate the safe and efficient execution and confirmation of trades between market participants during the transition from the 2006 ISDA Definitions to the 2021 ISDA Interest Rate Derivatives Definitions. By completing the matrix (in part or whole) and submitting it to ISDA, each market participant: (i) consents to the information so provided being made available to the general public on an attributed basis (whether in part or in whole and whether on an aggregated or unaggregated basis) and (ii) agrees not to use the process to accomplish any anti-competitive goal or to use the information obtained for any anti-competitive purpose. By submitting the personal data requested under 'Key Contact information' below, you acknowledge and consent to that data being shared in part or in whole by ISDA with other members of ISDA whether as part of disclosing the other data submitted or separately. ISDA will not be liable or responsible for any non-compliance with any data protection laws or regulations that may be applicable to those to whom that information is disclosed. Further information on ISDA's data protection policies is available here: <https://www.isda.org/general/isda-member-and-non-member-representative-privacy-notice/>. You also represent that the contact details supplied are for Operations, Legal or Compliance personnel only and are not for trading personnel.

	Cleared IR derivatives		Non-cleared IR derivatives - Electronic			Non-cleared IR derivatives - Paper		
	What ISDA Definitions will you reference in messaging for trades submitted to CCPs (excluding JSCC) from 4th October?	Will you be ready to consume incoming messaging from CCPs (excluding JSCC) in 2021 Definitions format from 4th October?	What date will you be ready to process electronically confirmed non-cleared trades under both the 2021 and 2006 Definitions?	What date will your default/preference for electronically confirmed trades change to the 2021 Definitions?	Following your default/preference change to the 2021 Definitions, will you still trade under the 2006 Definitions at request?	What date will you be ready to process paper confirmations under both the 2021 and 2006 Definitions?	What date will your default/preference for paper confirmations change to the 2021 Definitions?	Following your default/preference change to the 2021 Definitions, will you still trade under the 2006 Definitions at request?

- *Please give any other information here:**
- BofA have populated the sheet selecting the Nov 27th option but please note we will be production ready from market opening in APAC on Monday Nov 29th
 - BofA functionality is confined to a default for clients or dealers to 2006 or 2021 for all Rates products i.e. if a client or dealer is not fully ready to move to 2021 defs then they should remain on 2006 defs until they are able to move holistically
 - BofA continue to work on 2021 capabilities for paper confirmations and for Equities and Commodities we do not have a published Go Live date at this time]

***Please give any other information here: Mitsubishi UFJ Morgan Stanley Securities is ready to process electronically confirmed trades (both cleared and non-cleared) and paper confirmations under both the 2006 and 2021 Definitions. We would like to move to 2021 Definitions wherever practicable but we accept both Definitions. We strongly prefer 2021 Definitions in non-cleared trades referencing SOFR in which the US Government Securities (USGS) Business Day is not specified. This is because, if the first calendar date of a Calculation Period is not a USGS Business Day, the compounding formulae in USD-SOFR-COMPOUND in 2006 Definitions and USD-SOFR-OIS Compound in 2021 Definitions are not equivalent and, in USD-SOFR-COMPOUND in 2006 Definitions, the interest rate from, and including, the first calendar date of the Calculation Period to, but excluding, the first USGS Business Day in the Calculation Period will effectively become zero.**

***Please give any other information here: Morgan Stanley's preference is to use the 2021 ISDA Interest Rate Derivative Definitions for trades entered into on or after 4th October 2021 with all counterparties who are capable to support the full suite of their interest rate and inflation derivative product offerings on the new definitions booklet. During the initial implementation period, Morgan Stanley intends to apply the 2021 ISDA Interest Rate Derivative Definitions on a counterparty-by-counterparty basis.**

NatWest Markets

Important: This matrix has been produced in order to facilitate the safe and efficient execution and confirmation of trades between market participants during the transition from the 2006 ISDA Definitions to the 2021 ISDA Interest Rate Derivatives Definitions. By completing the matrix (in part or whole) and submitting it to ISDA, each market participant: (i) consents to the information so provided being made available to the general public on an attributed basis (whether in part or in whole and whether on an aggregated or unaggregated basis) and (ii) agrees not to use the process to accomplish any anti-competitive goal or to use the information obtained for any anti-competitive purpose. By submitting the personal data requested under 'Key Contact information' below, you acknowledge and consent to that data being shared in part or in whole by ISDA with other members of ISDA whether as part of disclosing the other data submitted or separately. ISDA will not be liable or responsible for any non-compliance with any data protection laws or regulations that may be applicable to those to whom that information is disclosed. Further information on ISDA's data protection policies is available here: <https://www.isda.org/general/isda-member-and-non-member-representative-privacy-notice/>. You also represent that the contact details supplied are for Operations, Legal or Compliance personnel only and are not for trading personnel.

	Cleared IR derivatives		Non-cleared IR derivatives - Electronic			Non-cleared IR derivatives - Paper		
	What ISDA Definitions will you reference in messaging for trades submitted to CCPs (excluding JSCC) from 4th October?	Will you be ready to consume incoming messaging from CCPs (excluding JSCC) in 2021 Definitions format from 4th October?	What date will you be ready to process electronically confirmed non-cleared trades under both the 2021 and 2006 Definitions?	What date will your default/preference for electronically confirmed trades change to the 2021 Definitions?	Following your default/preference change to the 2021 Definitions, will you still trade under the 2006 Definitions at request?	What date will you be ready to process paper confirmations under both the 2021 and 2006 Definitions?	What date will your default/preference for paper confirmations change to the 2021 Definitions?	Following your default/preference change to the 2021 Definitions, will you still trade under the 2006 Definitions at request?

Key Contact Information (Operations, Compliance or Legal staff only - no trader contact details to be shared):

Ricardo Luz

Ricardo.Luz@natwestmarkets.com

Nomura

1. Cleared Trades – What ISDA Definitions will you reference in messaging for trades submitted to CCPs (excluding JSCC) from 4th October?

We are :

- Only 2006 (most Venue D2D)
- Only 2021 (one Venue D2D)
- Default 2006 but can also use 2021 (Venue D2C, Voice MarkitWire, Paper)
(each Venue D2D must be 100% 2006 or 100% 2021 due to an external connectivity problem)

2. CCPs Will you be ready to consume incoming messaging from CCPs (excluding JSCC) in 2021 Definitions format from 4th October?

We will be able to consume messages from CCPs in both 2006 and 2021 from Sunday-03 October

3. e-comm uncleared -What date will you be ready to process electronically confirmed non-cleared trades under both the 2021 and 2006 Definitions?

We can process messages in both 2006 and 2021 from Monday-04-October (unless they come from Venue D2D when we can only consume them in either 2006 or 2021 – dependent on the Venue. But nearly all Venue D2D is Cleared rather than Uncleared)

4. e-comm uncleared -What date will your default/preference for electronically confirmed trades change to the 2021 Definitions?

It depends on our D2D restrictions being lifted and possibly JSCC going to 2021

5. e-comm uncleared - Following your default/preference change to the 2021 Definitions, will you still trade under the 2006 Definitions at request?

Yes

6. Paper - What date will you be ready to process paper confirmations under both the 2021 and 2006 Definitions?

Sunday-03-October

7. Paper - What date will your default/preference for paper confirmations change to the 2021 Definitions?

It depends on client flow

8. Paper- Following your default/preference change to the 2021 Definitions, will you still trade under the 2006 Definitions at request?

Yes

*Please give any other information here: [

. When it comes to what is being sent to the CCP, most case will be what has been traded on a broker or client platform so either 2006 or 2021

. We don't intend to maintain a sustainable dual process where we would send both 2006 and 2021 definitions confirmations. One will be the default and the other would be the exception]

***Please give any other information here:** Please note that UBS prefers to trade non-cleared Derivatives on 2006 ISDA Definitions post 4th of October. We will be able to accept client/dealers requested to trade on 2021 ISDA Definition, however in some instances it will require operational support.
